## Online Safety Guide

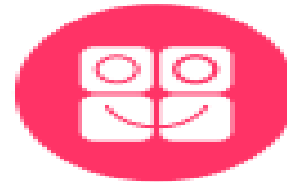

### Get in control of parental controls

If using a smartphone, check content lock is set

Set parental controls on your home broadband

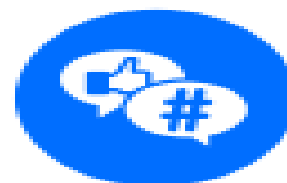

Control app downloads and purchases

Make the games console safe and secure

Use safety mode on YouTube and Google

If using social networks, check privacy settings

### Remember to talk to your child

- Check what your child is doing on DB primary
- What is 'personal information' and why it's important? (emails, name, phone number, school names etc.)  
Remind your child not to share it online.
- Not everyone is who they say they are online - be careful sharing thoughts and feelings with people you've only met online.
- Choose usernames that don't reveal personal information.
- What images and photos might be OK to share? Think about what you share with friends.
- Once it's online, it's out of your control.
- Find sites and apps you think are suitable and check them out with your child.
